Summary

Motivated undergraduate Data Science student with a strong foundation in data analysis and a passion for extracting insights from complex datasets. Eager to apply skills gained through academic coursework, intensive training at ITI, and a comprehensive data analysis course at DEPI to contribute to meaningful projects.

Education

Alexandria University — Alexandria, Egypt

BSc in Data Science (Undergraduate)

Expected Graduation: 2027 (Assumed)

Skills

- **Programming Languages:** Python (Pandas, NumPy, Scikit-learn)
- **Database Management:** SQL
- **Data Analysis & Visualization:** Excel, Power BI, Tableau
- **Statistical Analysis:** A/B Testing, Regression Analysis
- **Soft Skills:** Problem-Solving, Team Collaboration, Communication

Training & Projects

ITI (Information Technology Institute) — Alexandria, Egypt

Summer Training Program | July – August 2025

- Completed practical training in web development, focusing on React, HTML, CSS, and JavaScript.
- Developed multiple structured projects under instructor supervision, applying modern UI/UX principles and component-based design.
- Gained solid experience in building responsive interfaces, managing state, and integrating interactive features.
- Collaborated with peers to create clean, functional front-end applications following best practices.

DEPI (Data Engineering & Production Institute) — Alexandria, Egypt

Data Analysis Course | August – December 2025

- Completed an intensive program focused on advanced data analysis techniques.
- Leveraged Python and its libraries for in-depth data manipulation and statistical modeling.
- Developed skills in creating dynamic dashboards and data visualizations using tools like Power BI and Tableau to present findings effectively.
